

Freelance

The Mom Project talent marketplace allows you to tap into agile talent that can flex up and down to meet the evolving needs of your business.

The American workforce is shifting.

Since 2013, the contingent or freelance workforce has grown at a rate **3x** faster than the U.S. workforce overall and, at its current growth rate, the current majority of the U.S. workforce will be contingent by 2027. Millennials and mothers are the most active segments of the growing freelance workforce.

Through our talent marketplace, The Mom Project connects employers with precisely the right skills at the right time.

KEY BENEFITS

On-demand access to specialized skillsets

Reduces FTE overhead burden

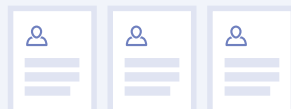

Provides pipeline of potential FTEs with a proven track record

How it works

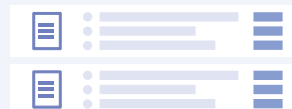

Post a project or temporary opportunity on our marketplace

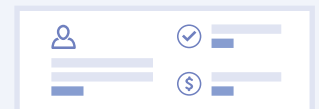

Within 24 hours you'll begin receiving bids from interested, qualified candidates

Review proposals, negotiate and request interviews with the tap of a button

Handle hiring, contracting, background checks, time tracking and payment processing all through our platform

Get started!

Post a project now on our marketplace or get in touch with our Enterprise sales team.
